The steamer *Albury*, which has arrived at Shanghai, brought over one hundred cases of rice for the Chinese from Japan.

Vessels now leaving Shanghai (says the *N. C. Daily News*) have to declare the actual quantity of oil and rice on board.

The British baron Walter Stefford, the first sailing vessel to Tientsin this season, cleared the Customs at Shanghai on the 10th instant.

The *N. C. Daily News* learns that war risks on oil and rice are now accepted, the premiums ranging as high as 2 per cent.

It is with deep regret that we (*Amoy Gazette*) learn of the death of Mr. G. Mattingly, late Secretary to H. I. G. M. Consulate, on the morning of the 9th instant.

The Agent informs us that the Anthon-Hungarian Lloyd's S. N. Co.'s steamer *Electra* from Trieste, left Singapore on the 15th inst. for Hongkong.

We have received from the agents, Messrs. Birley, Dalrymple & Co., the report of the Court half-yearly meeting of the British North Borneo Company, held at Camoune-street Hotel, London, on the 17th December.

We are informed by the Agents (Messrs. Butterfield and Swire) that the Ocean Steamship Co.'s steamer *Serpent*, from Liverpool, left Singapore on the morning of the 14th instant for this port.

A telegram in the *Sydney Morning Herald* dated London, 18th January, says:—It is reported that Russia is about to convert Quelpa, a small island lying to the south of Korea, into a naval station.

It is notified in Saturday's *Gazette* that the Hongkong Opium Farm has been sold to Mr. Hu Chin Shuang for one year from the 1st March next to the 28th February, 1886. The monopoly has been let for \$155,000 for the twelve months.

We hear that some of the posters offering rewards for the apprehension of the Lyndhurst Torrens murderers have had the Chinese portion torn off. This is evidently not an accidental occurrence, as it has been noticed in several different parts of the town.

At the Police Court yesterday morning, as is usual at China New Year time, the amount of business to be transacted was but small, cases being by no means numerous and most of a trivial character, and the Court was closed early, so that the officers of the department might have a half-holiday.

The Paris *Figaro* has the following item:—Rheims, 31st December.—Hodgson and Co., one of the largest Champagne houses, yesterday celebrated the centenary of its foundation. In connection with the occasion the heads of the house sent to the Mayor of Rheims the sum of one thousand francs to be employed for some purpose of public utility.

The steamer *Ningpo*, Capt. W. Potts, which arrived here from Shanghai on Sunday last, reached at 1 p.m. on the 12th inst. the anchorage of the French gun-boats, and having anchored eight miles, a little south of Canton Island. They do not seem to have succeeded thus far in finding the Chinese squadron which has been sent out to break the blockade of Formosa. The British steamer *Crusader*, which arrived yesterday afternoon from Yangtze ports, reports having sighted, while in the vicinity of the Hainan Islands, men-of-war going north, and to all appearance being chased by French war-vessels, as they were going a dangerous speed against the wind.

LATEST TELEGRAMS.

[SPECIAL TELEGRAM TO "DAILY PRESS."] HAIFONG, 16th February, 3.30 p.m.

THE WAR IN TONQUIN.

CAPTURE OF LANGSON.

Langson and Klima have been captured by the French troops after heavy fighting. The Chinese were completely routed and are being closely pursued. Losses are unknown.

[Klima is a village close to Langson, one mile to the north. As the French had three days' heavy fighting through a long defile before the 8th instant, the date of last advice received, they took four days to get some twenty miles into Langson, and must have had hard work. —D.P.]

RECENT FRENCH OPERATIONS.
The following telegram has been received by the French Minister at Shanghai:

HANOI, 7th February, 1885.
General Briere de l'Isle has occupied the Devan Pass and its issues. During the night between 2nd and 3rd, a skirmish took place without loss on the French side. The marching columns arrived on the morning of the 4th at a day's journey from Dongson, where the Chinese army had concentrated. Attack at noon.

Rheims, 31st December.—Hodgson and Co., one of the largest Champagne houses, yesterday celebrated the centenary of its foundation. In connection with the occasion the heads of the house sent to the Mayor of Rheims the sum of one thousand francs to be employed for some purpose of public utility.

The Straits-Times of the 4th inst. says:—As the Messageries Maritimes steamer *Sagittarius* was coming to the Borneo Company's wharf, during the afternoon in charge of Capt. H. H. Taylor, a pilot who had refused to act when sought to be removed, and the steamer went past her berth and crossed stem on into the wharf, until brought up by ground forward. The piles and beams of the wharf were broken and the planking and debris flew in every direction, the vessel's speed being at the time of the blow. About 220 feet of the wharf, including the pilothouse, were blown off, and got out of her unpleasant position, but the delivery of the mails was delayed an hour or more owing to the mishap. This is the first accident that has occurred to any of the Messageries steamers during the twenty-five years that they have been making use of the wharf. The Messageries Maritimes Company readily admit their liability, so that there will be no litigation.

We regret to state that Mr. Iwaseki Yatzo, the founder and principal owner of the Mita Bihi Company, died at his residence in Tokio on the 1st inst. When the history of the course of his company will come to be written, the deceased gentleman will occupy a prominent position in it, perhaps, because to his industry, integrity, and business acumen this country is indebted for the first successful line of Japanese owned steamers. In various other directions Mr. Iwaseki gave valuable aid in promoting the nascent commerce of the country, but he will best be remembered among the foreign community as a broad, liberal views, his steadfast friend and friend to all.

The British grubstake *Zephyr* arrived at Ningpo on the 7th instant.

The American corvette *Enterprise* arrived at Shanghai on the 9th instant.

The French corvette *Duguay-Trouin*, Captain Guieu, arrived at Shanghai, from a cruise.

The British turreted-ship *Warden*, in reserve, returned to her anchorage on Sunday, from a cruise.

The British steamer *Hock-Kien* and the German steamer *China* left Kowloon docks on Sunday.

The Russian cruiser *Eugene* bearing the flag of Rear-Admiral Crows arrived at Shanghai on the 2nd instant.

The French cruiser *Le Peuplier* arrived at Shanghai on the 2nd instant, and after coaling and taking in stores was to proceed to Formosa.

The *Mercure* says:—The steamers *Foch* and *Lesquer* left Chfoo on the 3rd inst. for Korea to bring General Wu and his troops to Port Arthur and Admiral Ting and his two cruisers.

General Liu Min-chuan telegraphed that he defeated the French troops near Keling on the 4th instant with great slaughter, and that he captured a large quantity of arms from the enemy on that day. —*Courier*.

The living operations at the Pacific Anchorage appear to have been brought to an end. Messrs. Roberts and Coleman, the drivers who for some time past were engaged in raising some of the sunken material returned to Shanghai on the 12th instant. —*Mercury*.

The following is the order of the day for the meeting of the Legislative Council to be held tomorrow:—

1. The Attorney-General to move the third reading of the following Bills:—

The Merchant-Balance Ordinance, 1885.
The Water Tax Ordinance, 1885.

2. The Attorney-General to move the second reading of a Bill entitled:—

The Bills of Exchange Ordinance, 1885.

The World says that "Lord Derby will, before many weeks are over, cease to be Colonial Secretary. It was a mistake ever to pit him in this position. Lord Derby is a very able man, but he has no sympathy with colonies or colonial interests. He is beyond our great dependence as burdens, and would be better suited to either to maintain them or extend them." —*Advertiser*.

He will not, however, take this position without a definite understanding that he will be supported in all measures necessary for the maintenance and security of our colonial empire. —"Unfortunately for the Colonies, however, the World has proved a little out in its judgment. Lord Derby has been appointed Lord Privy Seal. Perhaps he may presently exchange posts with Lord Derby. Let us hope so."

The steamer *Glenfinlas*, which arrived at Shanghai on the 11th instant, is reported (says the *Mercury*) to have on board £10,000 worth of whisky stores. The next steamer due to arrive at Hongkong is said to have also on board a large quantity of dried and pickled goods.

It is said that the fair-haired foreigner who was recently killed while fighting the French in Tonkin, was a person well known in Shanghai.

If the report is correct he was formerly a member of the Municipal Police, and more recently a rent collector for a foreign firm in the Settlement.

Daily News.

The Chinese New Year's Day passed off uneventfully in this colony. There was the customary crackle firing among the Chinese, and foreigners living in the neighbourhood of Chinese quarters heard the crackle of firecrackers on Saturday and Sunday night.

On Sunday evening a number of rockets were sent up from the middle of the town.

This is rather a dangerous practice in the heart of the town, but fortunately they do not appear to have caused any damage.

A pretty large theft of cotton yarn seems to have been made in the Chinese quarter.

The Chinese were before the Police Court on Saturday morning charged with unlawful possession of 100 packages of that material, each package containing 22 hanks. The defendants are the master and employee at a masonic store shop at 7, Wing On Lane, and the police found the yarn in the shop. They had reason to believe it was stolen, and asked for a reward. The case comes again to-day.

On Sunday night a robbery was committed on the upper floor of the *Daily Press* Office, the residence of Mr. R. C. Wilcox, and an attempt made to break open one of the safes in the manager's office. The thief fled home. Access to the latter was obtained by breaking a window facing the courtyard at the back, and after breaking the door, coupling his hands with it. He said he had represented the volunteers, but fortunately the door of the safe was closed, so he was unable to open it.

Supposition was at once directed against the inmates of the house, as it is next to impossible for anyone to gain access from the outside of the premises without detection, and in this case revealed the fact that a house-cook had been tampered with. The master of the house, Mr. Andrew Johnson, the Superintendent of the Lee-Yuen Refinery, was called to the scene.

Mr. J. DUNCAN proposed the next toast that of the Army, Navy, and Volunteers, coupling with it the name of Mr. Stewart, who had been a volunteer officer at home.

Mr. DUNCAN, in response, thanked those present for their kind words of welcome to the Hospital under the command of Dr. H. E. Governor Kozi, and the members of the Society.

He said that the Society had given a gift of £100 towards the cost of a site upon which to build the Hospital to the value of some \$14,000.

Before the Hospital could be built, the Committee in London had to consult with the Admiralty, the War Office, and the Foreign Office, and the Hospital would be open to all.

Dr. H. E. Governor Kozi, the Agent of the Society, and the members of the Hospital, were present.

The dinner was concluded by the Chairman.

The chairman proposed the next toast that of the Queen.

THE ENGLISH CRICKETERS IN AUSTRALIA.

ENGLAND V. NEW SOUTH WALES.
SYDNEY, 12TH JANUARY.

The match between England and New South Wales Eleven, which was played yesterday on the Association ground, Shropshire, contained the English and Garrett the New South Wales. The former won the toss, and went in first, and the Englishmen were disposed of for 205 runs. The features of the day's play were the bowling of Jones for New South Wales, and the innings of Bates, who made the top score of 68 by splendid control of the bowing and lifting of the ball. The New South Wales team was excellent. The following is the score—

It is not likely that Mr. Weston, the official liquidator of the Oriental Bank Corporation, will appeal against the decision of Mr. Justice Clitheroe.

COLONEL STEWART'S VICTORY IN THE SOUDAN.

LONDON, 23RD JANUARY.

Further information from the front confirms the news relative to the victory obtained by Colonel Stewart. The enemy's force was weaker than at first reported. It is estimated that there were 14,000, all of whom were armed with rifles.

Lord Wolseley has telegraphed to the Horse Guards confirming the intelligence of the defeat of a large force of the enemy during the engagement at the last place on Saturday, 17th, between the Governor, Colonel Herbert Stewart and the Rebel force, which amounted to four thousand, who had taken up a position at and around Abekal Wells. The British commander on ascertaining the presence of many of the enemy on his front left the camels and baggage train in the rear advancing with the whole force in a square all on foot, and succeeded in outflanking the Mahdi's men, who were in full charge which was responded to by a withering fire from the British. The Arabs succeeded in capturing the left side of the square, but the British, however, remained admirably steady and maintained a hand to hand encounter. The other parts of the square, in the meanwhile kept up a deadly fire. Finally the enemy was successfully repulsed, leaving eight hundred dead on the field, besides the wounded.

Shortly after, the Hussar regiment, under Lt. Col. W. L. St. L. and Colonel Stewart, advanced on Metemmeh. The British force is stated to have numbered 1,000 men, and six officers killed, including Lieutenant-Colonel Fred. Barnaby of Khiva, nine officers wounded, including Viscount St. Vincent, Captain of the Sixteenth Queen's Dragoons; Capt. A. H. Ayre, Captain of the Tenth Hussars; and sixty-five men killed and eighty-five wounded.

CAIRO, 23RD JANUARY.

Colonel Stewart has telegraphed expressing his belief that the victory will greatly dislodge the enemy, and in any further engagement fight well as an obstinate character.

TOKIO.
The Nakasendo railway now under construction has reached Yamanaka from the side of Takasaki, and a station is being built at that place.

Mr. Kadoda Shigeno, a lawyer, practicing in Tokio, has been prohibited from giving public speeches on political matters at any place under the jurisdiction of the Tokio fū.

The new building of the Suiwakka, a naval club, newly completed at the Shiba park, was opened by His Imperial Highness Prince Arisugawa Takashiro, president of the club, on the 2nd inst.

The public works department has invested more than two million yen in machinery, for working the Aoi mine on an extensive scale, but as the results have proved unsatisfactory so far, the government desire to part with the mine and are offering it for sale.

Mr. Suzuki Misawa, editor of the *Jyū Shimbun*, has been fined ten yen at the Tokio correctional court, for having failed to produce the original copy of a certain injurious note published in his paper some time ago in connection with the arrival of the members of the former Nijo-ya.

Mr. Mishina, superintendent of the engineering bureau, is about to leave Tokio for Kioto and provinces in Shikoku on an inspection tour. His mission in Kioto is believed to have some connection with the proposed scheme of cutting a canal through the mountains along the Kiso river.

The commandant of districts in the Hukaidō and two of his subordinates have arrived in Tokio. The object of the commander is to lay before the Government the fact that in the vicinity of the boundaries with the Russian dominions there are roving vagabonds causing much trouble that the troops should be increased to keep them under control.

K. K. Kim, who had forwarded a petition to the foreign legations concerning their necessary circumstances. It is stated that the Korean Government have stopped the allowance of money since the recent disturbances, and they have so far managed to provide their wants out of a sum of money brought by Kin Kakun, a Korean official, to this country for the purpose of purchasing some machinery for the government. They are said to desire to go to the United States, for they are not inclined to risk their lives in returning to Korea.

COCHIN-CHINA.

SAIGON.

The following paragraph is from the *United Indo-Chinese*. "Among the passengers who arrived from Singapore by the Minerva was the Baroness Preisch of Saïan. Madame Preisch, widow of the Prince Pranh-Prescha, formerly Governor of one of the western provinces of Siem Reap, is the daughter of an English doctor established at Saïan. The marriage greatly dismied the King of Cochin, who, shortly after its celebration, Prince Preisch was banished. The Prince was falsely accused of having practised extortion in the provinces he administered; but he was put to death solely because, in consequence of his marriage with an Englishwoman, he had incurred the suspicion of the king. On the demand of the English Government the King of Saïan paid a indemnity of \$100,000 to the young widow, who, since the assassination of her husband, has resided at Biacau. She is now in France, where she has received marks of the most lively sympathy; it is with the same sentiment that we salute her arrival at Saïon. The Barons, we are informed, intends to visit Cambodia. The circumstances of Prince Preisch's execution will be fresh in the memory of many of our readers. The lady's father, whom the French agents spoke of a doctor established at Bangkok, was Sir James Knox, formerly British Consul-General in Siam.

ENGLISH AND CHINESE DICTIONARY WITH THE PUNJI AND MANDARIN PRONUNCIATION.

An English-Chinese Dictionary, published at the Royal Press, Hongkong.

For comprehensive and practical service this work has been unequalled. All the new words which the Chinese of late years have compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given *in extenso*. Each and every word is fully illustrated and explained, forming exercises for students of the most instructive nature. Both the Court and Punji pronunciations are given, the second being based on the best principle hitherto attained. The typography displays the success of an attempt to give Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness, not previously attained, and dispensing with those vast margins and spaces which have heretofore characterized Chinese publications.

To illustrate the scope of the work the following facsimiles are reproduced for consideration:

Chalmers' Vocabulary contains about 16,000 Chinese characters and Macbride's English and Chinese Dictionary about 100,000, whilst this work contains more than 500,000 English words, and upwards of 600,000 Chinese characters.

Again, despite all the grammars and other literary works as yet published, the student of this language will find absolutely no examples to display the various usages and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto published.

For the work is so complete that a reference to it will be indispensable to all European residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted.

To those resident in England and interested in China it cannot but be invaluable occasionally.

It comprises upwards of two thousand large quarto pages.

A large REDUCTION in PRICE is made to Purchasers of SIX or more Copies.
